training, youth and sport**

Ulysseus

The European University

European Universities are transnational alliances that will become the universities of the future, promoting European values and identity, and revolutionizing the quality and competitiveness of European higher education.

These alliances should include partners from all types of higher education institution and cover a broad geographic scope across Europe. For that purpose, they should be based upon a co-envisioned long-term strategy focussed on sustainability, excellence and European values and offer student-centred curricula jointly delivered across inter-university campuses, where diverse student bodies can build their own programs and experience mobility at all levels of study.

The alliance comprises eight diverse universities from four European regions:

**the European University for the
citizens of the Future**

Košice City

- **3 universities (20,000+ students)**
- **The second largest city in Slovakia**
- **Located in the heart of Central Europe**
- **European Capital of Culture 2013**
- **UNESCO Creative City of Media Arts 2018**
- **European Volunteering Capital 2019**
- **KOŠICE PEACE MARATHON - the oldest marathon in Europe and the third oldest worldwide**
